

SLOTTED COMPOSTER

- Most products are pre-treated with a factory base coat for protection during storage and transit. We recommend that you treat your new product as soon as possible after assembly, using a wood preservative treatment. Apply in accordance with the manufactures instructions. -Timber is a natural material. It will shrink and swell as a result of varying moisture content. -Please keep all plastic bags and small parts away from children in order to reduce the risk of suffocation.

Position the 4 **75751198SPTR** (posts) in a square formation as shown and sink 238mm into the ground.

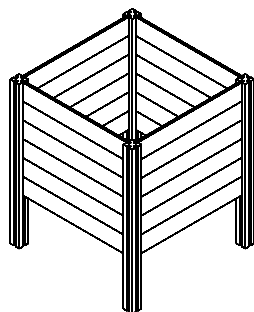

Slot the first row of **137160912PTR** (boards) into the framing secure 3 of the boards using the 50mm screws 2 per board. The one board you do not secure will be your access to the compost so position it in an accessible orientation.

Slot the remainder of the **137160912PTR** (boards) into position.

Secure all of the top **137160912PTR** (boards) using 2x50mm screws per board.

To retrieve the compost loosen the top screws and slide the boards up.
